

Digital Performance Audit

Lakeland Air Conditioning

Website: thelakelandac.com

Report Date: February 05, 2026

EXECUTIVE SUMMARY

Your website shows moderate performance with a mobile score of 63/100. While functional, there are optimization opportunities that could improve customer acquisition. The 6.8 s load time is above the recommended threshold.

CRITICAL FINDINGS

AREA	STATUS	IMPACT
Mobile Speed	■ WARNING	Score: 63/100, LCP: 6.8 s
Desktop Speed	■ GOOD	Score: 90/100
Lead Capture	■ OPPORTUNITY	AI-powered intake can capture 24/7 leads

PROPOSED SOLUTIONS

- 1. **Mobile Optimization** - Compress images, minify CSS/JS, implement lazy loading
- 2. **AI Intake System** - Deploy 24/7 AI phone answering to capture leads while you work
- 3. **Performance Monitoring** - Weekly performance reports to track improvements

NEXT STEPS

I'll follow up with your office to discuss these findings. A 14-day trial of our AI Intake system is available to immediately capture leads you may be missing.
