

# Digital Performance Audit

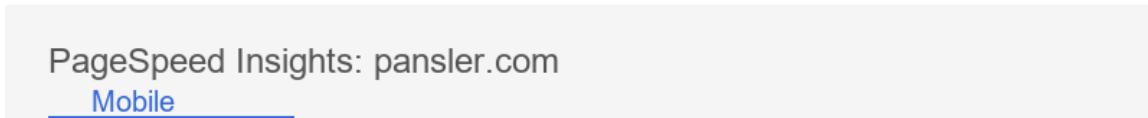

## Exclusively for: Pansler Law Firm

Domain: pansler.com

Date: February 06, 2026

METRIC	STATUS	SCORE	IMPACT
Mobile Speed	■ POOR	33/100	Critical (Most users are mobile)
Desktop Speed	■ NEEDS WORK	69/100	Important for office users
SEO / Visibility	■ GOOD	80/100	Determines search ranking

## ■ PageSpeed Evidence

- First Contentful Paint 3.8 s
- Largest Contentful Paint 5.2 s
- Total Blocking Time 840 ms
- Cumulative Layout Shift 0.05
- Speed Index 4.9 s

Fig 1. Actual PageSpeed dashboard showing standard Speed Index metrics.

## Detailed Findings

**■ Mobile Experience Hazard:**

Your mobile speed score of 33 is in the CRITICAL range. Google penalizes sites specifically for this metric. Most patient/client searches happen on mobile devices, meaning you are likely losing traffic to faster local competitors.

**■ Desktop Performance:**

Your desktop score of 69 suggests unoptimized images or code bloat. While less critical than mobile, it affects professional credibility.

## Recommended Action Plan

1. **Speed Optimization:** Compress images and defer unused JavaScript to boost mobile score above 50.
2. **Intelligent Intake:** Implement 24/7 AI lead capture to ensure no opportunities are missing during off-hours.
3. **Legal Compliance Update:** We will install the mandatory privacy policy pages to protect your business from new FDBR fines.

**■ VALUE OF FREE OFFER:** Typically, this optimization package (Speed Fix + Compliance Update) costs \$499. Waived completely for this initial audit to demonstrate value.
